

Sketchbook Exercise #7-8

Grid Portrait: A Creative Exploration

Exercise: Using the reference photo from the grid portrait project or another alternate image, students will create a smaller study (8 x 10 or 16 x 20) in a medium of their choice that will focus on utilization of the grid in a more creative approach. Emphasis should be on a more simplified approach to transferring the information. You can use Photoshop to filter your grid image for easier simplification, but the final drawing should be in traditional media.

(Note: Only one drawing is required for this double-weighted exercise.)
